ABOUT US

GIET SCHOOL OF PHARMACY

Established in 2004, GIET School of Pharmacy is one of the premier institutes situated in Andhra Pradesh. The Institute is famous for offering bachelors, masters and doctorate programmes in the field of Pharmaceutical Sciences stream.

COURSES OFFERED

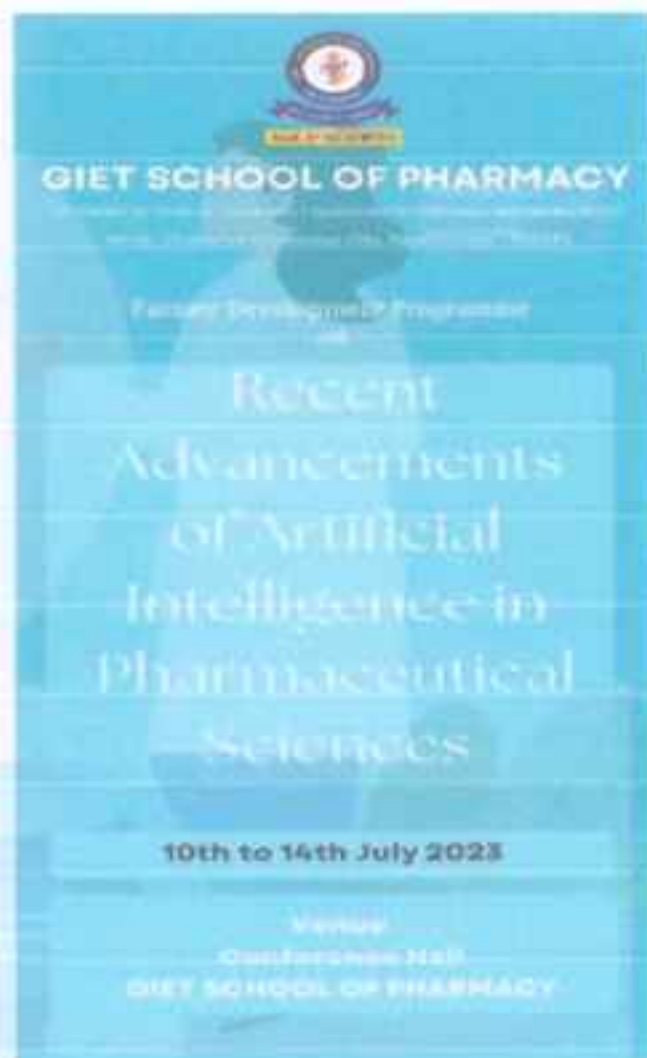

Bachelor of Pharmacy (B.Pharm)
 Master of Pharmacy (M.Pharm)
 Doctor of Pharmacy (PharmD)
 Doctor of Pharmacy (PhD)

Goals

GIET School of Pharmacy is well known for their academic as well as extracurricular and cultural activities. Students are also encouraged which helps students in the career placement drive.

RECENT ADVANCEMENTS OF ARTIFICIAL INTELLIGENCE IN PHARMACEUTICAL SCIENCES

Artificial Intelligence is reshaping pharmaceutical sciences with cutting-edge advancements. AI accelerates drug discovery by identifying potential drug candidates through machine learning and deep learning algorithms, drastically reducing time and cost. It aids in personalized medicine by analyzing patient data to tailor treatments, improving efficacy and minimizing side effects. Predictive modeling allows for accurate forecasting of drug interactions and adverse effects, enhancing safety. Moreover, AI-powered systems are revolutionizing drug delivery, optimizing formulations, and streamlining production processes. These advancements collectively contribute to a more efficient, innovative, and patient-centered pharmaceutical industry.

Programme Schedule

Inauguration	09:30 AM to 09:50 AM
Session 1	10:00 AM
Tea and snacks	11:00 AM to 11:15 AM
lunch	12:30 PM
Session 2	2:00 PM
Valedictory Programme	4:00 PM

DAY 1

DR. S.PAVAN

DAY 2

DR. S.PRINCELY

DAY 3

DR. A.L.T.KALYANI

DAY 4

DR. J.KIRUBAKARAN

DAY 5

DR. P.RAVI PRATAP

CONVENER

FACULTY DEVELOPMENT PROGRAMME ON " RECENT ADVANCEMENTS OF ARTIFICIAL INTELLIGENCE IN PHARMACEUTICAL SCIENCES "

PROGRAMME REPORT

A Five days Faculty Development Programme was organized by IQAC, GIET School of Pharmacy, Andhra Pradesh, on " Recent Advancements of Artificial Intelligence in Pharmaceutical Sciences " from 10.07.2023 to 14.07.2023. The programme was started with light lamping ceremony by chief guest followed by the introduction of speaker by Dr.M.D. Dhanaraju, Principal, GIET School of Pharmacy.

The speaker of the Day 1 programme was Dr. B. Pavan and he presented the topic on "AI in Clinical Trials ". This session helped the faculties understand importance of AI models predict trial outcomes based on historical data, helping researchers make informed decisions about trial modifications. AI can handle large volumes of clinical trial data, cleaning, aggregating, and analyzing it more efficiently than traditional methods.

The guest speaker was Dr. S. Princely of the Day 2 programme which was held on 11.07.2023 and she presented a seminar on "AI in Drug Discovery and Development ". The session made faculty aware of how AI can analyze vast amounts of biological data quickly, identifying potential drug targets and predicting drug-target interactions. And this seminar given the importance of how AI algorithms can design new drug molecules by predicting their structure and activity, leading to the discovery of novel compounds.

The speaker of the Day 3 programme was Dr.A.L.T. Kalyani, and she delivered the presentation on "Importance of AI in ICT ". The session of programme helped faculties understand how AI algorithms predict equipment failures before they occur, allowing for timely maintenance and

minimizing downtime. This improves overall productivity and reduces maintenance costs. This seminar highlights the transformative potential of AI in pharmaceutical manufacturing, making it more efficient, cost-effective, and patient-centric

The guest speaker of the Day 4 programme was Dr. J. John Kirubakaran, and she delivered her lecture on "AI in Pharmacovigilance". The lecture stressed the importance of how AI enables real-time monitoring of adverse drug reactions (ADRs), allowing for quicker detection and response to potential safety issues. And how AI can integrate data from various sources, such as electronic health records, social media, and patient support programs, providing a comprehensive view of drug safety

The guest speaker of the Day 5 programme was Dr. P. Ravi Pratap, and she delivered the session on "Recent Advancements of AI in Pharmaceutical Chemistry". The lecture highlighted how AI can analyze individual health data to provide personalized recommendations for disease prevention, such as vaccination schedules, lifestyle changes, real-time tracking of outbreaks and preventive screenings.

PROGRAM OUTCOMES

- A five days Faculty Development programme was organized by IQAC, GIET School of Pharmacy on " Recent Advancements of Artificial Intelligence in Pharmaceutical Sciences " from 10.07.2023 to 14.07.2023.
- A total of 33 teaching Faculty participants registered for the program from various institutions.
- This programme provided a good platform for exchange of information relating to Enhanced Drug Discovery by AI. Improved Drug Design by AI algorithms predicting the structure and activity of new drug molecules, resulting in more effective and targeted therapies. Personalized Medicine. Data Integration by AI from various sources, such as genomics, proteomics, and metabolomics, providing a comprehensive understanding of disease mechanisms and potential treatments
- The 5 days programme received a good response and Teaching faculty found this FDP quite beneficial.

ABOUT US

GIET SCHOOL OF PHARMACY

Established in 2004, GIET School of Pharmacy is one of the premier institutions situated in Andhra Pradesh. The Institute is famous for offering bachelors, masters and doctorate programmes in the field of Pharmaceutical Science stream.

COURSES OFFERED

B.Pharm (Bachelor of Pharmacy) is a 4-year undergraduate program for students interested in the medical field, excluding becoming doctors, providing opportunities in medicine prescription, manufacturing, and distribution.

Pharm D (Doctor of Pharmacy) is a 6-year professional doctoral program (5 years of study plus 1 year practical training) that can be pursued after 10+2 or through lateral entry for B.Pharm graduates.

M.Pharm (Master of Pharmacy) is a postgraduate program that equips students with advanced technical, research, and theoretical knowledge in modern and traditional medicines, offering expertise comparable to seasoned healthcare professionals.

"Herbal synergy" unveiling the pharmacological potential of plant constituents

Plants have long served as a cornerstone of traditional medicine, offering remedies for a vast array of ailments. Modern pharmacology has increasingly recognized the value of plant-derived compounds, not as isolated chemicals alone but as a synergistic interplay of bioactive constituents. This concept, known as herbal synergy, suggests that the combined effects of plant constituents often surpass the efficacy of individual components. Such interactions—ranging from enhancing bioavailability to mitigating adverse effects—hold immense potential for drug discovery and development.

This introduction lays the groundwork for exploring the mechanisms behind herbal synergy, the pharmacological significance of multi-component therapies, and how leveraging these interactions could revolutionize modern medicine.

"HERBAL SYNERGY" UNVEILING THE PHARMACOLOGICAL POTENTIAL OF PLANT CONSTITUENTS

Programme schedule

Inauguration	9:00 AM to 09:45 AM
Session 1	10:15 AM
Tea	11:00 AM
Lunch	12:30 PM
Session 2	2:00 PM
Valedictory Programme	4:00 PM

DAY 1 FOUNDATIONS OF HERBALS

DAY 2 CHALLENGES AND FUTURE DIRECTIONS

DAY 3 APPLICATIONS IN DRUG DEVELOPMENT

DAY 4 ANALYTICAL TOOLS AND TECHNIQUES

DAY 5 HOLISTIC APPROACH AND APPLICATIONS

CONVENOR
DR.M.D.DHANARAJU

FACULTY DEVELOPMENT PROGRAMME ON "HERBAL SYNERGY: UNVEILING THE PHARMACOLOGICAL POTENTIAL OF PLANT CONSTITUENTS"

PROGRAMME REPORT

A Five days Faculty Development Programme was organized by IQAC, GIET School of Pharmacy, Andhra Pradesh, on "Herbal Synergy: Unveiling the Pharmacological Potential of Plant Constituents" from 19.09.2023 to 23.09.2023. The programme was started with light lamping ceremony by chief guest followed by the introduction of speaker by Dr. M.D. Dhanaraju, Principal, GIET School of Pharmacy.

The guest speaker was Dr.S.Selva durai of the Day 1 programme which was held on 19.09.2023 and he presented a seminar on " Herbal Medicine Research and Global Health: A Therapeutic Perception". The session made faculty aware of the scientific validation of herbal medicine has been a topic of extensive research. Clinical trials and pharmacological studies are essential to ensure the safety and efficacy of herbal remedies.

The speaker of the Day 2 programme was Dr.P.Kishore and he presented the topic on "Challenges and Novelties in Pharmacognostical studies". This session helped the faculties understand importance of developing standardized protocols for the extraction and analysis of bioactive compounds and incorporating genomic studies to understand the genetic makeup of medicinal plants.

The speaker of the Day 3 programme was Dr. M. Ponnivalavan, and he delivered the presentation on "AI in Herbal Drug Standardization ". The session of programme helped faculties understand how the methods like High-Performance Liquid Chromatography (HPLC) and Gas Chromatography (GC) are used to separate and quantify bioactive compounds.

The guest speaker of the Day 4 programme was Dr. G. Vamsee Krishna, and he delivered his lecture on " Role of HPTLC in Identification of Herbal Drugs ". The lecture stressed the importance of HPTLC to study the chemical constituents of medicinal plants and develop new herbal products and also HPTLC helps in meeting regulatory requirements for the quality and safety of herbal medicines by providing reliable and reproducible results.

The guest speaker of the Day 5 programme was Dr. R.Karthikeyan, and he delivered the session on " Traditional, Natural and Holistic Healing approaches for healthcare and wellness". The lecture highlighted how embracing traditional, natural, and holistic healing approaches can provide a balanced path to health and wellness, complementing conventional medical treatments.

PROGRAM OUTCOMES

- A five days Faculty Development programme was organized by IQAC, GIET School of Pharmacy on "Herbal Synergy: Unveiling the Pharmacological Potential Of Plant Constituents" from 19.09.2023 to 23.09.2023.
- A total of 31 teaching Faculty participants registered for the program from various institutions.
- This programme provided a good platform for exchange of information relating to the therapeutic potential of herbal remedies, global trend towards natural and identifying the active compounds in herbs that contribute to therapeutic effects. Combining conventional and herbal medicine can enhance patient outcomes and provide comprehensive care. Advanced methods for phytochemical profiling allow for a more detailed analysis of the chemical constituents of plants, aiding in the discovery of new therapeutic agents
- The 5 days programme received a good response and Teaching faculty found this FDP quite beneficial.

ABOUT US

GIET SCHOOL OF PHARMACY

Established in 2004, GIET School of Pharmacy is one of the premier institutes situated in Andhra Pradesh. The institute is famous for offering bachelors, masters and doctorate programmes in the field of Pharmaceutical Science stream.

COURSES OFFERED

B.Pharm (Bachelor of Pharmacy) is a 4-year undergraduate program for students interested in the medical field, excluding becoming doctors, providing opportunities in medicine prescription, manufacturing, and distribution.

Pharm D (Doctor of Pharmacy) is a 6-year professional doctoral program (5 years of study plus 1-year practical training) that can be pursued after 10+2 or through lateral entry for B.Pharm graduates.

M.Pharm (Master of Pharmacy) is a postgraduate program that equips students with advanced technical, research, and theoretical knowledge in modern and traditional medicines, offering expertise comparable to seasoned healthcare professionals.

Unlocking Innovation Research Methodology and Funding Strategies

In the field of pharmacy, innovation plays a pivotal role in advancing healthcare by developing new drugs, improving therapeutic approaches, and enhancing patient outcomes. Unlocking Innovation: Research Methodology and Funding Strategies focuses on the critical importance of structured research processes and strategic funding in driving breakthroughs. Robust research methodologies ensure the scientific rigor needed to explore complex pharmaceutical challenges, from drug discovery to clinical trials. Simultaneously, effective funding strategies enable researchers to overcome financial barriers, facilitating progress from concept to commercialisation. This integrated approach empowers pharmacy professionals to pioneer advancements that shape the future of healthcare.

FACULTY DEVELOPMENT PROGRAMME ON " UNLOCKING INNOVATION: RESEARCH METHODOLOGY AND FUNDING STRATEGIES"

PROGRAMME REPORT

A Five days Faculty Development Programme was organized by IQAC, GIET School of Pharmacy, Andhra Pradesh, on " Unlocking Innovation: Research Methodology and Funding Strategies" from 05.02.2024 to 09.02.2024. The programme was started with light lamping ceremony by chief guest followed by the introduction of speaker by Dr. M.D. Dhanaraju, Principal, GIET School of Pharmacy.

The guest speaker was Dr. S. Revathy of the Day 1 programme which was held on 05.02.2024 and she presented a seminar on " Drafting Research Publication, Funding Proposal and Ethical Conduct of Research". The session made faculty aware of how to draft Title and Abstract, in detail the experimental design, materials, procedures and highlight significant results and trends to provide context by reviewing relevant literature and outline how the project's success will be measured and evaluated. This seminar highlighted all the guidelines that will help to draft a comprehensive research publication, funding proposal, and maintain ethical standards in research

The speaker of the Day 2 programme was Dr.B.Pavan and he presented the topic on " Importance of Innovation and Research Culture to Inculcate Startup and Entrepreneurship". This session helped the faculties understand how a strong research culture promotes evidence-based decision-making, reducing risks and increasing the likelihood of success for startups.

The speaker of the Day 3 programme was Dr. R.Thirumurugan, and he delivered the presentation on " Drug discovery and its applications ". The session of programme helped faculties how effective reference management is crucial for maintaining the integrity and credibility of a manuscript. Ensuring consistency in formatting throughout the manuscript. Organize references using keywords and tags.

PROGRAM OUTCOMES

- A five days Faculty Development programme was organized by IQAC, GIET School of Pharmacy on "Unlocking Innovation: Research Methodology and Funding Strategies" from 05.02.2024 to 09.02.2024.
- A total of 38 teaching Faculty participants registered for the program from various institutions.
- This programme provided a good platform for exchange of information relating to by combining a robust research methodology with effective funding strategies and ethical conduct, you can unlock innovation and drive impactful research in pharma field. Choosing an appropriate research design (e.g., experimental, observational, qualitative, quantitative) based on research question and objectives. To develop a detailed plan outlining methods for data collection and analysis.
- The 5 days programme received a good response and Teaching faculty found this FDP quite beneficial.

The guest speaker of the Day 4 programme was Dr. P. Aravanan, and he delivered his lecture on "Future Prospects in Drug Design and Development". The lecture stressed that the future of drug design and development is incredibly promising, with several advancements poised to revolutionize the field and Advances in genomics and personalized medicine are enabling the development of targeted therapies tailored to individual genetic profiles, improving treatment outcomes

The guest speaker of the Day 5 programme was Dr. P. Shanmuga Pandian, and he delivered the session on "Research Methodology in Drug Discovery and Life Sciences". The lecture highlighted Research methodology in drug discovery and life sciences involves a systematic approach to identify, develop, and test new drugs that includes Target Identification, Lead Discovery, Lead Optimization, Preclinical Testing, Clinical Trials and Regulatory Approval.

PROGRAM REPORT

Program Name : Essential Skills for effective work environment
Date of activity : 18.03.2024
Organized by : IQAC, GIET School of pharmacy
Resource person : Dr. V. Alekhya. Ph.D
Mobile No : 9032423723
Number of
Participants : 25

Report:

A Seminar on essential skills for an efficient workplace was organized by IQAC, GIET School of pharmacy Dr. V. Alekhya spoke to the non-teaching personnel about skills like prioritizing responsibilities, working proficiently, being resourceful, and completing tasks in an organized manner. She discussed various aspects of organizational effectiveness, communication, conflict resolution, time management, and overcoming procrastination. For instance, keeping things orderly and prioritizing tasks can help in managing workload and reducing clutter.

The entire event, which was intended for non-teaching staff, was interactive. They learned how to handle their daily lives in both their personal and professional lives from this session, which was beneficial. They also offered their opinions and recommendations.
